Our Microsoft LSP Competencies & Service Capabilities

As a certified Microsoft Licensing Solution Partner (LSP), Task Systems Limited is strategically positioned to support organizations in their digital transformation journey through tailored licensing, enterprise-grade technology solutions, and managed services.

Our official Microsoft Solutions Partner Designations reflect our technical excellence and deep engagement across multiple solution areas:

- **Solutions Partner for Business Applications**

We empower organizations with Microsoft **Dynamics 365** and the **Power Platform** to automate processes, optimize operations, and drive actionable business insights.

- **Solutions Partner for Modern Work**

We help businesses embrace the modern workplace with Microsoft 365, enabling secure collaboration, productivity, and hybrid work capabilities that scale across teams and locations.

- **Solutions Partner for Infrastructure (Azure)**

We design and manage scalable, resilient cloud infrastructure on Microsoft Azure, helping organizations modernize their IT environment with agility, security, and cost-efficiency.

- **Solutions Partner for Security**

We provide strategic advisory and implementation services to secure users, data, and digital assets using Microsoft's comprehensive security, compliance, and identity solutions.

Licensing Expertise & Cloud Enablement

As a Microsoft Licensing Solution Partner (LSP), Task Systems offers end-to-end licensing advisory and procurement services, ensuring that our clients — from small businesses to large enterprises — are equipped with the most suitable and cost-effective Microsoft solutions.

We provide and manage a full suite of Microsoft 365 licenses tailored to business size and complexity:

Microsoft 365 Business Licenses.

Basic – Ideal for essential productivity and collaboration needs

Standard – Includes desktop apps and advanced services for growing teams

Premium – Adds advanced security and device management for a complete solution.

Microsoft 365 Enterprise Licenses.

E1 – Core web-based productivity and collaboration tools

E3 – Adds desktop apps, security, compliance, and identity features

E5 – Comprehensive solution with advanced security, analytics, and voice capabilities

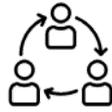

We also support our clients with on-premises licensing, subscription optimization, and compliance audits — ensuring long-term value and operational efficiency.

As a recognized **Azure Expert Managed Services Provider (MSP)**, we offer continuous cloud lifecycle services from assessment and migration to optimization and governance helping clients harness the full capabilities of Microsoft Azure with confidence and control.
